

## SCRUM Meeting

March 21th

### What did you complete since the last meeting?

Bryan Hilldrup : 12+ hours into SQL, ultimately decided to switch to Firestore. Managed git merges and commits.

Paul Guller : Made a recycler view to implement scrollable activities and push/pull to database

Avery Rector : Development to UI/ GUIs

Peter George : Wrote encryption for password, implemented Firestore in off branch, scrum meeting

### What will you accomplish before the next meeting?

Bryan Hilldrup : Push/pull to database, restructure files

Paul Guller : Recycler and GUIs for tier 3 tabs, be ready to receive data from database

Avery Rector : Work with Paul, same thing

Peter George : Same as Bryan

### Do you have anything that's getting in the way of doing your work?

Bryan Hilldrup : school/work

Paul Guller : school/work

Avery Rector : school/work

Peter George : school/work

### What insights have you made?

Bryan Hilldrup : SQL was tedious, overall a bust in comparison to Firestore.

Paul Guller : The scrollable activities with add will be more complex, working with Avery on them

Avery Rector : NA

Peter George : same as Bryan. SHA256 encryption. Our layout is better than I thought before

### Do any changes to the project need to be made as a result of your work?

Bryan Hilldrup : Changing database from SQL to Firestore

Paul Guller : team up with Avery on above

Avery Rector : team up with Paul

Peter George : No, currently at main (We did go to SDK min 19 though)
